

SPECIALIZED IN LADLES

In recent years, DILEB has acquired special manufacturing Know-How for heavy machinery and steelwork equipment, especially for ladles. This enabled us to successfully deliver ladles with different capacities of up to 400 tons of liquid steel to our customers.

„DILEB FULL SERVICE“

- Material procurement according customer's specification including cast and forged parts
- Welding construction (EXC3) including non-destructive testing (PT, MT & UT)
- Mechanical fabrication up to 36 m length
- Logistics & transport

DILEB MASCHINENBAU GMBH & CO. KG

Based in Saarland, south-west of Germany, we are one of the leading independent contract manufacturers with focus on sophisticated heavy machinery. Our range of products includes individual components and complete assemblies weighing up to 200 tons.
